Thursday, August 6-p. m. Bear operations depressed the security market to-day, net losses of %@2% per cent being made throughout the list of active shares. There duced, and in view of the company's record in the last year it would seem as if such a course would be inevitable, but if the directors' action on dividends in the last two years should be the guide for this year's action no reduction will take place. It may be remembered that in 1894 the company had a deficit, after the payment of \$187,904, and in 1895.

guide for this year's action no reduction will take place. It may be remembered that in 1894 the company had a deficit, after the payment of a dividend on the common stock of 4% per cent, of \$857,904, and in 1895, after the payment of 4 per cent, a denict of \$692,101, making two years when the company paid unearned dividends. The Louisville and Nashville statement for the year ended June 30, with a preliminary estimate, has already been published in this column, and the actual figures published to-day, differed little from those printed in July. The company reported as actual results from operations a surplus of \$1,377,503, an increase over the preceding year of \$676,918, and a decrease from the preliminary statement of \$15,270. Government and railway bonds were weak and lower, probably in sympathy with stocks, the inast-named class of bonds suffering material losses in a number of issues. The Government is and 5s are not at a low level, and though they have been weak for some time there are some people who are not afraid to purchase them, and in doing so it seems as if they exhibited common sense and an able appreciation of the value of this kind of Government paper, despite the attitude of Mr. Bryan and his followers toward gold and gold bonds. Bear attacks to-day were encouraged by an advance in call money to 3½ per cent, and reports of an urgent demand for loans in mercantile circles. Such reports caused light liquidation by small holders; and extreme declines in Burlington, St. Paul. Northwest, Rock Island, Sugar Refining, New-York Central and Lake Shore extended from 2 to 3 per cent. In the afternoon a raily carried prices up an average of 1 per cent, but the closing was unsettled and feverish. New-York Central sold as low as St in the day, about 6 points under its lowest price during the Venezuelan panic. London sold St. Paul and Louisville and Nashville to a moderate extent. Total sales were 247,342 shares of which the greater part was furnished by Sugar Refining, the Granger shares. Chicago Gas, Louisv
